

We are excited to welcome MissyMoo to the Greenways whanau. She was a stray, however she is super friendly and loves love. We have posted her on social media and if she isn't claimed, she will become the official pet of House 1. Everyone is enjoying her company, showering her with lots of love and attention

What a day we had! Despite the rain pouring down, we made it to Ngawha Springs and enjoyed a relaxing soak in the hot pools. The weather didn't dampen our spirits, and everyone who took the plunge had a great time.

Next, we headed to Yantra restaurant for some delicious pizza, filling our bellies with mouth-watering slices. Once our hunger was satisfied, we made our way to the Kawakawa train station. The rain eased up just in time for our train ride, giving us the option to sit inside or stand on the open carriage. Our guide shared fascinating local knowledge as we took in the beautiful scenery. The train took us to Te Ake Ake station before heading back to Kawakawa.

Overall, it was a fantastic day with something for everyone to enjoy, whether it was the hot pools, the pizza, or the train ride

The team at the depot have been working diligently to stock up on wood for next year. Clem and some members of the crew have been crafting incredible Kauri platter boards. We are truly fortunate to have such talented individuals in our organisation

Kei reira ano tatou?  
Are we there yet?
