It's raining and pouring, but the day programme is finding sunshine in the storm. Instead of singing in the rain, Pere and Lloyd have been jamming in the old post office. Lloyd's been practicing and is getting better every day!

Happy 53rd Birthday Helen. We all hope you have an amazing day

We had a very special visitor. Lloyds Granma came all the way from Perth for a visit. Meanwhile, Tiffany and Pete have been scrapbooking and staying cozy indoors.

Big J had a grin from ear to ear on Tuesday—more special guests dropped in for a visit!

One of them used to be his partner-in-crime in the world of beekeeping (buzzing with excitement, obviously), and the other two flew in all the way from Aussie to check out his stomping ground. Big J couldn't wait to introduce them to the crew, show them around, and proudly take them to the day programme. Huge thanks to Marie for snapping these moments—you've seriously missed your calling. Woman's Day needs to get in touch

Big news, whānau – Our trusty old ride has officially been upgraded to a sleek, roomy 10-seater Toyota that's all about comfort, style, and a touch of swagger. With way more space, plush seats, it's made for cruising. Oh – and did we mention the backing camera? Because yes, parking just got a whole lot easier.

It's already a hit with the crew – and honestly, we don't blame them! So if you see our shiny new van around town, give us a wave. We'll be the ones riding in style.

Whats on:
DRY JULY –
