

Thursday is “Make Your Own Lunch” day at the Day Programme!

This week toasties and sandwiches were on the menu, and there was lots of creativity happening in the kitchen. From carefully spreading toppings to choosing their favourite fillings, everyone got involved.

The results looked and smelt absolutely amazing and the best part? Every single one was declared “very yummy!” A great way to build independence, confidence, and enjoy a delicious lunch together.

Exciting things are happening at Awakino House! The kitchen is currently undergoing construction, with a fresh new space expected to be completed in March. While the work is underway, the household has been making the most of it and embracing a bit of “camp life.” Meals are being cooked using a trusty frying pan, and the laundry has temporarily doubled as the dishwashing station. It may not be the usual setup, but everyone has adapted brilliantly and there have been plenty of laughs along the way.

There’s a real buzz of anticipation as they look forward to having their brand-new kitchen up and running. We can’t wait to share the finished result, it’s going to be worth it!

Calling All Home Cooks!
We’re putting together a special recipe book and we need your favourite home-cooked recipes! Do you have a go-to family dinner, a much-loved baking recipe, or a dish that everyone always asks you to make? We would love for you to share it with us. Whether it’s sweet, savoury, traditional, or something a little different, every recipe tells a story, and we can’t wait to collect them all into one book to share. Please send your recipes through to us and be part of something delicious!
