25 SEPTEMBER 2026

Every Wednesday, some of our talented people head to Lynks, where imagination comes to life. From brilliant woodwork to eye-catching mosaics, there's no limit to what they can create when they dream big. Each session gives them the chance to explore new ideas, build confidence, and turn their creativity into something truly special.

WHAT ARE THE PLANS THIS
WEEKEND?**

Once a week, our day programme team heads across the road to our local library to choose books to take home and enjoy. There's nothing better than relaxing with a cuppa and a good book.

Got a drawer full of old cables or a TV that's seen its final episode? Greenways is excited to announce that E-Waste Recycling is now available at the Greenways Depot, 16 Edward Street, Dargaville!

You can now safely recycle a range of unwanted electronics and appliances while helping keep our community cleaner and greener.

Pricing:

- FREE - Cables, wires, switches, adaptors and remotes
- \$5 - Phones, tablets, small speakers, small appliances, keyboards and more
- \$10 - Laptops, printers, scanners, stereos and large speakers
- \$15 - Vacuum cleaners, microwaves and large non-oil heaters
- \$20 - TVs and all flat-screen televisions

Drop-offs are welcome Monday to Friday, 9.00am to 3.30pm. We are closed on weekends and public holidays.

Before you throw it away, give it one last job and let us recycle it! Together we can turn yesterday's technology into tomorrow's resources.

Please remember: No after-hours dumping. The site is monitored by security cameras, and unauthorised dumping may result in disposal costs being charged to the person responsible.

Let's keep Dargaville clean, green, and a little less tangled in old cords!

WHATS ON

2nd October - Business Awards

9th October - Depot BBQ

11th October - Jason's Birthday
